

# Worksheet: Attempts at Peace

## Consolidation and analysis

One durable success, one framework that unravelled, one summit whose failure reignited violence. Comparing them reveals what makes peace hold or collapse — the core of Tasks 6 and 7.

**Q1.** What did the Camp David Accords of 1978 achieve, and what did they leave unresolved?

**Q2.** Complete the comparison of the three peace attempts.

| Attempt                  | Scope | Outcome | Why it held / failed |
|--------------------------|-------|---------|----------------------|
| Camp David (1978)        |       |         |                      |
| Oslo (1993)              |       |         |                      |
| Camp David Summit (2000) |       |         |                      |

**Q3.** Explain the role and the limitations of the United Nations in the struggle for peace (refer to Resolutions 242 and 338 and UNRWA).

**Q4.** "Attempts to settle conflicts between Arabs and Israelis have always ended in failure." With reference to at least two attempts, evaluate this proposition. (Practice for Tasks 6 and 7.)
