

Tenths & Hundredths — Support Version

Seeing tenths as decimals

"Ten equal parts — each one is a tenth, or 0.1," says Ollie.

1. This strip is split into 10 equal parts. Each part is one-tenth.

Colour 3 parts. That is $\frac{3}{10}$, written as a decimal: _____

2. Match the fraction to the decimal. $\frac{5}{10} =$ _____ $\frac{8}{10} =$ _____

3. Write as a fraction: a) $0.2 =$ _____ b) $0.7 =$ _____
