

Time in the Hollow: Units, am/pm & Duration

Converting time and solving duration problems

Ollie watches the sun cross the Hollow. "Morning is am, afternoon and evening are pm. To find how long something takes, count on to the next hour first."

Remember: 60 minutes = 1 hour, 24 hours = 1 day. Time doesn't work in tens — count on carefully.

1. Convert.

a) 2 hours = _____ minutes b) 90 minutes = _____ hour(s)
_____ min c) 1 day = _____ hours

2. Write am or pm.

a) The friends wake at 7:00 _____ b) Pip watches the stars at 9:00

3. The friends leave the log at **9:15 am** and reach the creek at **10:05 am**. How long was the walk?

4. A bush dance starts at 2:40 pm and finishes at 3:25 pm. How long does it last?

5. Challenge: Bo digs for 1 hour 35 minutes, starting at 10:50 am. What time does he finish?
